

# MEI Capability Statement

## **BUSINESS SUMMARY:**

Martarano Engineering, Inc. started with a vision of providing quality and responsive Mechanical, Electric & Plumbing (MEP) services at reasonable rates. Since our inception, we have provided our engineering design services to numerous customer and facility types throughout the mid-Atlantic and mid-Western regions of the US. Recently, our reputation has driven our customer base to extend into the eastern half of the US and beyond.

Our engineers have successfully completed projects ranging in size and complexity from system and facility studies to major engineering efforts in support of large capital projects exceeding \$10 million in total construction costs.

## **SERVICES**

### Mechanical

- Heating - Air Conditioning- Ventilation – Piping Design
- Boiler Plant/Chiller Design/Replacement
- Data Center Design
- Building Automation Systems

### Electrical

- Power Distribution Analyses - Power Quality Management
- Fault/Current Arc Flash Studies - Metering Analyses & Load Vérification
- Lighting Design & Controls
- Emergency Standby & Cogen Systems
- Fire Alarm Systems

### Piping

- Building Plumbing – Site Utilities
- Compressed Air Systems – Gas Piping
- Sprinkler & Pure Water Systems
- Fire Protection Systems

## **FACILITIES AND EQUIPMENT:**

We use the latest MEP based CAD software to prepare construction documents. During design we utilize lighting calculation software (Visual), HVAC load analysis software (Carrier HAP) and electrical distribution system modeling software (SKM System Analysis) for short circuit analysis and arc flash studies. We are ever expanding our software base utilizing BIM software such as Revit™.

## **CUSTOMERS:**

MEI has provided MEP services to numerous industry sectors including health care, manufacturing, retail, educational and professional office facilities.

## **SUMMARY**

Our customers define what distinguishes us from other MEP firms. They appreciate our understanding of not only their engineering needs, but also an appreciation for their current business and industry concerns. We strive to understand their business challenges so we can provide the appropriate solution that will provide the largest impact at the lowest possible cost.

Our values establish the need to listen closely to customers in order to fully understand the challenges of their businesses before we arrive at a solution. In this way we have earned to be many of our customer's trusted advisor.

Martarano Engineering, Inc. will be an active partner in performing your project requirements from concept to development. We will take the time required to fully understand your expectations and desires before we begin to engineer your specific project requirements and goals by becoming an integral part of your team. Our licensed engineers provide start-to-finish MEP engineering services to owners, architects and contractors working within budget and schedule for each project assigned.
